

ROSSLAND COUNCIL FOR ARTS AND CULTURE

AUDIO/VISUAL SYSTEM RENTAL FORM

The Miners Hall is equipped with a projector, screen, and a Blu-ray DVD player. Both the screen and the projector are mounted to the ceiling. The large motorized screen lowers down to the stage floor. The projector and the DVD player can be operated remotely from the Hall floor. There is also an in-house sound system.

Projector and Screen Specs:

Screen: Da-Lite 210" diagonal (4:3 aspect ratio: 168" wide, 126" high).

It's a dual-coated screen (1 reflective, 1 transmissive). The screen is mounted backwards (transmissive coating is facing the projector)

Projector: Panasonic PT-EZ570U (5000 lumens, 1920x1200 16:10 aspect ratio WUXGA resolution)

Cabling to the projector is HDMI, from stage left only. Any audio signal on the HDMI cable is unused; must arrange for separate amplification of audio track. Projector uses 'lens offset' to throw the image down from the ceiling and right to the centre of the screen. No digital keystone correction is used; imager in the projector and screen surface are parallel.

Please review the two following options and choose the appropriate option and number of hours for your Audio/Visual Presentation. You must also fill out the invoice at the bottom.

A. Basic A/V system (visual only)

Screen, projector, DVD player
